There is an additional sentence to the threat from [redacted] last night (I have the actual form now that he filled out online):

I have a call into the [redacted] Police Department but if I could connect with one of your officers ASAP I would greatly appreciate it. Or I can go to the station, whichever is best.

Thanks. Kirsten

Good Morning Captain Palka,

I wanted to ask for your guidance on something. The 2nd Season of Remini's show is going to begin tonight. We have already started getting an increase of hate mail just with the teasers, so I am expecting the threats to start up shortly after the first episode (tonight).

Previously I was going to the Hollywood station to report any threats we received, but sometimes this is difficult as they are not the normal types that the officers at the front desk are used to dealing with. Then in January I was advised I could work directly with the Threat Management Unit, which has been very helpful, but does not result in my ending up with a Police report documenting the fact that we received and reported a threatening communication.

Part of the reasoning on this is that we have experienced that we will get a random threat and then down the road, it connects to another more serious one. Det. Grundland,

You were copied on this email. NE is sending a unit now.

This is one I really want to crack. I'll have someone start working on the IP but I'd greatly appreciate your doing any checks you can on your end.

The Remini hate speech has cranked up again with teasers for season 2, thus the threats are worsening again.

Dear Mrs. Pedersen,

I wanted to inform you that the staff member in charge of promotion at the Church of Scientology Los Angeles, 4810 W. Sunset Blvd., Los Angeles, CA 90027, received the threat attached to this e-mail. She saw it this morning, but as noted, it was sent last night at 1:52 A.M. This message was sent via the "Contact Us" link on the Church of Scientology website, "Scientology.org". The suspect's IP address is noted on the message data, and the suspect filled out their state as "California". The threat itself said: "I'm here to purge the world of scientologists. I've left a pipe bomb at one of your churches. Have fun." We are currently doing our drill and so far have had a team of persons, including a bomb dog, check our premises for any bombs or signs of one. Nothing has been found.

Please let me know if you have any questions.

Sincerely,

Dear Captain Palka:

Please read the following special VIP invitation for you and your spouse.

On Saturday May 28th we will experience the grand opening of Scientology Media Productions or what we call SMP. SMP is Hollywood's newest studio! However, you may remember this historic 5 acre TV, Radio and movie production studio as KCET. The location is near the triangle where Sunset meets Hollywood Blvd.
The studio is now the property of the Church of Scientology and it is completely renovated from the satellite dishes to the three mammoth sound studios and the fully integrated computer systems taking in and putting out news, data, radio and television in and beyond greater Los Angeles. SMP is the oldest movie production studio in Hollywood, originally built in 1912. Hundreds of movies from the talkies to hits in the 50's as well as TV shows we all know from the early days of TV.

You will be amazed at all you will see and hear including fantastic live entertainment, food and beverages as well as a tour of the facilities.

I hope you and your spouse or significant other can attend this amazing Hollywood studio opening. We look forward to seeing you on the 28th at 1:00 PM.

Please Confirm in your RSVP back to me and we will give you parking instructions, which is free!

I sincerely hope you can attend, it will be great to see you again.

Always,

However, you may remember this historic 5 acre TV, Radio and movie production studio as KCET. It is now the property of the Church of Scientology and it is completely renovated from the satellite dishes to the three mammoth sound studios and the fully integrated computer systems taking in and putting out news, data, radio and television in and beyond greater Los Angeles. SMP is the oldest movie production studio in Hollywood, originally built in 1912. Hundreds of movies from the talkies to hits in the 50's as well as TV shows we all know from the early days of TV.

You will be amazed at all you will see and hear including fantastic live entertainment, food and beverages as well as a tour of the facilities.

I hope you and your spouse or significant other can attend this amazing Hollywood studio opening. We look forward to seeing you on the 28th at 1:00 PM. The studio is on Sunset near Hollywood Blvd.

Captain Zarconi, please confirm in your RSVP back to me and we will give you parking instructions, which is free!

Always,

Bob Adams
